- Critical Thinking

PROFESSIONAL SUMMARY

Result-oriented Senior Associate / Analyst with an MCA background and 3+ years of experience bridging the gap between business requirements and technical execution. Proven track record of leveraging data-driven insights to optimize operational workflows, manage project lifecycles, and coordinate cross-functional teams. Adept at navigating complex database systems, mapping technical dependencies, and applying Agile mindsets to streamline delivery.

EXPERIENCE

Digital marketing and research senior associate 02/2025 - current
Google Operations Center (GOC) - Gurgaon, Haryana

- Perform rigorous validation checks to ensure all lead data is accurate, current, and compliant with data privacy regulations.
- Identify Key Decision Makers (KDMs) that align with the company's Ideal Customer Profile (ICP).
- Maintained Standard Operating Procedures (SOPs) for the enrichment process to ensure consistency across the research team.
- Acted as the functional bridge between business requirements and data infrastructure, conducting deep secondary market research to analyze, enrich, and map complex datasets according to strict corporate guidelines.

Analyst 10/2023 - 02/2025
Google Operations Center (GOC) - Gurugram, India

- Enhanced lead profiles by appending missing information such as direct-dial phone numbers, verified email addresses, job titles, and company firmographics.
- Maintained accuracy threshold on all enriched data.
- Identified data inconsistencies and structural dependencies within legacy informational assets; translated complex data patterns into structured, clean, and query-ready databases (MySQL/MariaDB).
- Managed an independent project backlog and task queue, estimating effort, prioritizing deliverables, and consistently meeting high-velocity execution timelines.

Technical Support Senior Associate 08/2022 - 10/2023
Western Digital - Gurgaon , India

- Employed advanced troubleshooting and expert storage devices knowledge to solve user problems.
- Voice process - International (North America and Australia)
- Diagnosed and solved issues for customers against SLAs, maintaining high satisfaction rate of above 95%.
- Streamlined project management processes to ensure timely delivery of tasks.
